

Rabbit

Long ears which twist to catch sounds in all directions

Long, narrow body.

Great for moving through through tunnels and undergrowth.

Soft hair for keeping warm.

Brown for camouflage.

Short, white tail which alerts other rabbits to danger

Big eyes facing sideways to watch out for danger

Nose to smell for food and what is around

Long whiskers to feel its way in the dark

Short front legs and feet for digging

Longer back legs and feet for pushing off, to run away
